MEMBERSHIP COMMITTEE AGENDA ITEM DETAIL SHEET

ITEM # 6: REVIEW COUNCIL MEMBERS TERMS FOR APPOINTMENT

BACKGROUND:

Prior to AB 1595 becoming law on 1-1-15, terms were fixed with the calendar year. Appointment occurred at various points along the term, which meant that a member might serve less than the full three year term in his or her first appointment. A change with AB 1595 aligned appointment dates and terms so that a member appointed on a date serves for three years from that date.

After AB 1595, the following changes are current law.

Per Section 4521 (d) of Welfare & Institutions Code (Lanterman Developmental Services Act), the terms of Council members shall be for three years. The term of each member shall begin on the date of appointment by the Governor and these members shall serve no more than two terms.

Per Section 4521 (e), a member may continue to serve following the expiration of his or her term until the Governor appoints that member's successor. The section includes requirements that the Council notify the Governor 6 months prior to the expiration of a member's term.

ANALYSIS/DISCUSSION:

Many Council Members have terms that are governed by law before and after AB 1595. The following Council members' terms expire on 1-1-16:

- April Lopez appointed to a first term on 2-2-12, and appointed to a second term on 5-22-13 which expires on 1-1-16.
- Kecia Weller appointed to a first term on 7-11-12, and appointed to a second term on 5-22-13 which expires on 1-1-16.
- Robert Taylor appointed to a first term on 7-18-14 which expires on 1-1-16.
- Charles Horne-Nutt appointed to a first term on 11-26-14 which expires on 1-1-16.
- Sandra Smith appointed to a first term on 2-2-14 which expires on 1-1-16.

QUESTION: Does the Membership Committee want to recommend that the Governor reappointment current Council Members who are eligible for a second term?

**ORANGE COUNTY
COUNCIL
CANDIDATES**

Name: REDACTED
County of Residence: Orange
Race: White

Eligible for vacant council seat: - Orange County Region - At Large 1

I am a: person with a developmental disability

Are you currently employed by, or a member of the governing board of an organization providing services to persons with developmental disabilities?"

No

Do you want to serve on the State Council and/or a regional advisory committee?

Yes, I want to apply to serve on the State Council

Yes, I want to apply to serve on the Regional Advisory Committee

How did your interest in, or knowledge of, the developmental disability field and service system develop?

I have cerebral palsy due to a birth trauma. I received Special Education services until I went High School where I was fully included. I continued my education and completed my Masters Degree in Education at UC Riverside.

What are your areas of interest in the developmental disability field and service system?

My passion has always been the rights for disabled individuals. It has been a long journey, but I have seen significant progress in this area. Although we have come a long way, we still need to persevere!

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I am retired now, however have worked in the field of social work and advocacy for persons with developmental disabilities for almost 30 years. I continue to be involved with the developmentally disabled community through volunteering with agencies I have worked for in the past. I would be interested in being on the State Council on Developmental Disabilities.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I have worked as a case manager and Supervisor/ Area Manager with the Regional Center of Orange County for 12 years. I was also employed at Dayle McIntosh Center for 7 years as a client advocate. I have a passion for helping those in need. For several years, I was the program director for UCP adult program. I feel confident in my experiences and education that I would be an asset to your committee.

I am a: representative of the general public

Are you currently employed by, or a member of the governing board of an organization providing services to persons with developmental disabilities?"

No

Do you want to serve on the State Council and/or a regional advisory committee?

Yes, I want to apply to serve on the State Council

Yes, I want to apply to serve on the Regional Advisory Committee

How did your interest in, or knowledge of, the developmental disability field and service system develop?

My personal background with disabilities started as a child when my brother was diagnosed with Attention Deficit Hyperactivity Disorder (ADHD) and continued at Goodwill of Orange County where I served as a Job Seeking Skills Training Instructor for 20 years. My experience in these areas taught me the value of patience that parents, siblings and teachers need to have for children with disabilities. The Goodwill population I worked with consisted of youth transitioning from school to work and adults transitioning from long-term periods of unemployment back into the workforce. My joint counseling and instruction entailed me using strong code of ethics to provide confidential counseling to students with disabilities, with the goal of empowering and providing them with individualized guidance to reach their success. I coordinated instructional matters, and was on the team to maintain high accreditation standards through the California Accreditation Rehabilitation Foundation (CARF), taught occupational skills to students with learning disabilities, physical disabilities, military veterans and other barriers to employment. I have even done networking and collaboration with colleges such as California State University, Fullerton, to share ideas for education enhancement. I take pride in my commitment to building partnerships with students and their families, collaborating with them and with other instructors, and referring vocational counselors to help students accomplish their goals.

MY PHILOSOPHY:

Inclusion and Collaboration Go Hand-in-Hand:

Every student with special needs should have the opportunity to learn in an inclusive educational environment with education team and the student with special needs, using collaboration to enhance academic and social skills to make a positive difference.

Every Student has unique qualities:

Each student has unique qualities that he or she is born with and those qualities need to be discovered by building trust and a strong professional relationship with the student and do the appropriate assessment to determine those qualities. Each student with special needs to be encouraged to take the leadership role in decision-making in his or her education. It is too often that when children reach adulthood and transition to college/continued education or the workforce, they are not taught this and have been socialized to express their goals and dreams. They are too caught up in what their support team of teachers, administrators, case managers and parents deem appropriate.

Education Should Be Individualized:

Every student has individual needs and, with every child and adult with disabilities whom I have worked with, I have been mindful of implementing the appropriate assessments and speaking to them one-on-one about those needs. Each individual also benefits from different ways of learning. Technology plays a major role in learning. Many students with special needs have increased learning through computer technology with interactive modules with video modeling.

What are your areas of interest in the developmental disability field and service system?

1. Inclusion for students in grade school and college, adults transitioning from high school to employment and housing for seniors with developmental disabilities.
2. An expanded childcare system for children with developmental disabilities.
3. Educational technology for children and adults with developmental disabilities, integrated with counseling to give them empowerment.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

People with developmental disabilities is my life. I have cousin who is 21 years old with Autism Spectrum Disorder and he is nonverbal. His mother is my Godsister. I have many years of bonding with adults with disabilities who I worked side-by-side

with at Goodwill of Orange County. Many training and supported employment programs have decreased in funding and support, which leaves them sitting home at their board and care. This makes me sad and I want to be an integral part of a committee to help empower them and have their lives be productive to increase their self-esteem and happiness. The best part of helping people with developmental disabilities that I miss at Goodwill was the clients/students simply telling me, "Thank You" and "I Love You Lori."

What strengths would you bring to the State Council and/or Regional Advisory Committee?

- Curriculum Development
- Instruction Development
- Leadership/Supervision
- Autism Spectrum Disorders
- Developmental Disabilities
- Physical and Cognitive Disabilities
- Mental Health/Crisis Intervention
- Communication Skills Training

How did your interest in, or knowledge of, the developmental disability field and service system develop?

I have two kids with disabilities, they have inspired me to be a better mom, to be informed, and to be the best advocate they can have to help them reach their maximum potential.

What are your areas of interest in the developmental disability field and service system?

The school system. This is such an interesting and complex system that I believe it can offer more opportunities to this unique and wonderful kids.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I strongly believe that if parents are informed, are part of the process where the decisions are taken in benefit of the kids, and work together as a big team, we can make a huge difference in the lives of the kids with disabilities, and their families.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I am the parent of two kids with disabilities, I am involved in the school the kids attend, I am always learning, attending workshops, seminars, and conferences about special education, I have helped families to learn about the school system and get the evaluations the kids need to be able to get the services they have the right to. I am always eager to learn and help, as a volunteer, or as a parent of two wonderful and awesome kids!

I am a:

Are you currently employed by, or a member of the governing board of an organization providing services to persons with developmental disabilities?"

Do you want to serve on the State Council and/or a regional advisory committee?

Yes, I want to apply to serve on the State Council

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I am very interested in serving on the State Council on Developmental Disabilities for the following reasons:

- 1) I am successfully serving on the Regional Advisory Committee- Silicon Valley & Monterey Bay (appointed and reappointed by the governor in 2013 and 2014).
 - 2) Presently I am active in the following committees:
 - Education Committee (Chair)
 - Legislative Committee (member)
 - Disparity Cohort Task Force (member)
 - Executive Committee (attendee)
 - 3) I provided input for the selection of the 2014 Get Safe grant - training to prepare first responders to better assist the disabled community during emergency situations.
 - 4) During my time serving the Regional Advisory Committee, I have been able to reach out and establish connections with the Latino disabled community and leaders. I have made several well received presentations on Self Determination and other issues. I am particularly proud of my audience-friendly presentation about: Bullying Awareness for People with Disabilities.
- As a passionate Latina parent of a child with special needs, I am ready to serve on the State Council on Developmental Disabilities as a Family Advocate Representative (at large) and take my advocacy skills to the next level.

Eligible for vacant council seat:
- At Large 1

I am a: parent, family member, legal guardian or conservator of a person with a developmental disability

Are you currently employed by, or a member of the governing board of an organization providing services to persons with developmental disabilities?"

Yes

Do you want to serve on the State Council and/or a regional advisory committee?

Yes, I want to apply to serve on the State Council

How did your interest in, or knowledge of, the developmental disability field and service system develop?

I am the mother of 3 children. My youngest daughter, Kelsey, has developmental disabilities. Kelsey was diagnosed at birth with Dandy- Walker Syndrome, cerebral palsy, hydrocephalus, seizures and developmental delay.

Kelsey and I have worked hard to help her achieve goals, milestones, appropriate education, leisure activities, medical services and therapies. I have watched her blossom and grow and it has inspired me to help make a difference to others with developmental disabilities.

What are your areas of interest in the developmental disability field and service system?

I am particularly interested in helping individuals with disabilities enrolled in special education and people with disabilities that are medically fragile.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

My daughter is non-verbal. I know that if she could talk, she would be the one serving on the Area Boards, sub committees and State Council. I feel I am her voice. I was appointed by Governor Brown to the former Area Board 13, now State Council on Developmental Disabilities- San Diego, Imperial Office in 2012. I love every minute of the time I have spent on Area Board 13.

I am participating in a sub committee to do community outreach for early identification of infants and toddlers with developmental disabilities because we know that early intervention can have a positive outcome for children with disabilities.

I believe serving on the State Council would be the natural next step to continue to serve and advocate for individuals in the community with disabilities.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

My biggest strength is my passion for helping and serving the developmentally disabled community. I also have strengths, experience and skills in public speaking, a deep understanding of IDEA, special education law, mediation and a huge commitment to individuals that are disabled.

How did your interest in, or knowledge of, the developmental disability field and service system develop?

I was born with cerebral palsy and have had to navigate through the service system to achieve my life goals. I wanted to attend college and was told by others that this was something I could not do. I was able to get my masters degree in social work. This was an accomplishment because at every level someone would tell me I could never be an effective social worker. As I went through my career I began to notice that a lot of people with developmental disabilities were unable to reach their goals due to an individual or system telling them that they weren't able to do what they desired. I have used my education and experience to enforce with people with developmental disabilities that they can do whatever they want with or without help to live a fulfilling life. At times I've been told that I need to curve my passion because I really don't know what's going on. But if I can continue to make a difference in others lives I will always have my own passion and keep pursuing it.

What are your areas of interest in the developmental disability field and service system?

Making sure that I'm a voice for people who can't speak for themselves. Being a part of system change due to the changes in the DD system in California and to make a

different for people with developmental disabilities so that they can achieve their hopes and dreams, whatever they may be.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I feel this would allow me to build up my advocacy skills and also improve them while making an impact at a state and local level. It would also allow me to develop relationships among other members that can be great resources while also develop friendships. My past and present work includes the State Self Advocacy Chair, I developed a grass roots advocacy group in the Silicon Valley/Monterey Bay SCDD office which dealt with housing issues for people with developmental disabilities. We met directly with the regional center regarding these issues. I also am serving as a member of the SCDD Silicon Valley/Monterey Bay office. I was also involved in testifying at the Federal level regarding disability and poverty.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I have excellent follow-through and get the job done. I'm willing to negotiate with others for a positive outcome. I use my experiences to build strong relationships with those who can make changes and am always willing to work with others. I don't need to be in the front just as long as the outcome is being met.

Yes, I want to apply to serve on the State Council

Yes, I want to apply to serve on the Regional Advisory Committee

How did your interest in, or knowledge of, the developmental disability field and service system develop?

Ever since I started working in this field I never really realized how grateful we should be for the simplest things in life we are able to do. Once I started being more familiar with more individuals with developmental disabilities I realized that they deserve so much more than what they are normally exposed to. They are amazing individuals that are only limited to some resources because sometimes they are not aware of them or they don't think they are able to learn or do certain things.

What are your areas of interest in the developmental disability field and service system?

I would mainly like to get involved in community service, helping with projects, volunteering at events, and help be a resource to families that need the assistance. I also speak Spanish and I've come to learn that a lot of families that don't speak English are much more limited to resources because at times they are timid of just communication and that way they don't shy away from great opportunities. I want to be able to help families as much as I can.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I really want to be part of this council because I want to be able to transform the lives of individuals and families with developmental disabilities. I would like to provide support, knowledge, and help open the doors to a fuller life that they truly deserve.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I am a very motivated, organized, responsible, problem-solver, positive, high energy individual that can establish great relationships with people that I come across with. I have patience, knowledge, and open communication skills based on what I've learned in my 5 years that I've worked in this field as a Program Director. I have also organized and been a part of many community events that service those with developmental disabilities. Some of the events I've been a part of are Autism walk, Buddy walk for down syndrome, Los Angeles Special Olympics, Annual Toy drives, food drives and many more.

How did your interest in, or knowledge of, the developmental disability field and service system develop?

It comes naturally. I was born into it, I have cerebral palsy. Through challenges of my own and of others who I have met, I realized that more could and should be done to simplify the systems upon which we rely.

What are your areas of interest in the developmental disability field and service system?

First and foremost, transportation and travel. Also, accessibility of public spaces and places, including hotels and housing.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I would like to share my experience and knowledge regarding the challenges that face so many citizens in so many areas. The public transportation available to us is dismal. If I could help improve this one area, I would be very grateful.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I have 21 years of experience in the travel and transportation business as owner of my own travel agency. I have excellent communication skills. I have knowledge of the practices and accommodations for people facing challenges in 25 countries and more than half of these United States. I know that California could be doing so much better.

How did your interest in, or knowledge of, the developmental disability field and service system develop?

My sister was diagnosed with Autism and a profound Intellectual Disability when she was two years old. I have grown up in a family that is a client of Lanterman Regional Center, and my mother gave up her career to enter into Special Education in our local school district. I volunteered at various day and summer camp programs for children and adults with disabilities before studying Neuroscience at USC for my B.A. and studying Human Development for my M.A. I am a Case Manager for Behavior Frontiers and am actively involved in the policy and advocacy efforts of Lanterman Regional Center, the Lanterman Coalition, and have been developing the California Sibling Leadership Network to expand the support and empowerment of Siblings with people with disabilities. My interest and knowledge in the field has been, and continues to be, ingrained in my upbringing and personal passion.

What are your areas of interest in the developmental disability field and service system?

Service Provision (I am a Case Manager for a company that provides services to clients with developmental disabilities);

Advocacy and Policy (As a sister and a service provider, I see the need for collaboration for updated policies that address the needs of the client and the provider);

Research (As a trained Neuroscientist and Behavior Analyst, I am fully aware of the important of evidence-based practices and the need to continually investigate various methods of intervention, policy, and family systems support)

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I wish to serve on the State Council on Developmental Disabilities because I bring a unique perspective to the efforts of Disability Service Policy. As a Sibling, I understand the needs of the families. As a service provider, I understand the needs of the organizations that hold the life quality of their clients in the highest regard. I believe my experience has cultivated in me a desire and urge to change the world of developmental service policy through action and involvement in the political systems that enable us to continue the work that we do.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I bring my perspective as a Sibling, my work as a Service Provider, my insight as a Behavior Analyst, my communication as a writer whose book is in publication (I have written a book about growing up with my sister and the ways in which a sibling with a disability impacts the "typical" Siblings), and my drive as an advocate.

Yes, I want to apply to serve on the State Council

How did your interest in, or knowledge of, the developmental disability field and service system develop?

My interest developed because I have always felt strongly about advocating for myself as well as others. I have become a better advocate by all the information I have learn by being on this committee. I have been able to share these resources with people who needed help and did not know where to go for help.

What are your areas of interest in the developmental disability field and service system?

My areas of interest are becoming more educated about self advocacy and to help others use self advocacy. Another interest for me is teaching the information I have learned about self advocacy to TRACE classes as well as elementary schools.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I want to serve on the State Council because I want to become more educated so I can help other people to become more educated.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I would be able to share how I have used self advocacy in my life. A strength I have is sharing information with people who are not aware of what it is like to have a disability.

How did your interest in, or knowledge of, the developmental disability field and service system develop?

I have been a foster parent to many children that have had varying developmental disabilities. I adopted two children that have presented with significant developmental disabilities. I now have experienced how important it is to increase both awareness and education about identifying these disabilities in children as soon as possible in order to provide the needed services.

What are your areas of interest in the developmental disability field and service system?

I have a great interest in helping identify children with developmental disabilities as early as possible in order to match them with services that are in place to help them thrive.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I am very committed to helping this segment of our population as much as possible. I believe the greater number of people available to be a voice for those in need help to implement services available in a successful way.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

As a parent I have direct experience in the challenges that those responsible for the well being of individuals with developmental disabilities go through. As a lay person the experience of working in the system to educate oneself about every aspect of the needs, processes and hurdles is a unique one most parents/caregivers.

How did your interest in, or knowledge of, the developmental disability field and service system develop?

I have a 2 year old granddaughter that was born with Down syndrome. I have another family member with Down syndrome and she is 35 years old and I have a 17 year old family member that has Autism. A member of Area Board 10 went I spoke at Club 21 on a day I had volunteered and I sat through his presentation. I learned a lot but then I realized that there was another way I could be part of the solution.

What are your areas of interest in the developmental disability field and service system?

I want to be part of the solution and educating others on what families really go through. Not the perception.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

Like I mentioned I want to be part of the committed to address real issues when it comes to challenges. I want to educate people on what they can accomplish.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

I bring my military background, my people skills and my ability to want to learn and speak out in support of all people with Developmental Disabilities. As I mentioned I have a second family member with Down syndrome who is well into her thirties and her parents never reached out to anyone. They tell me it was out of fear and embarrassment. I want to talk to people and groups and help bring them out so they can be helped, talked too, share information.

How did your interest in, or knowledge of, the developmental disability field and service system develop?

I have been working in the field of Special Education since the late 70s (both here in CA, in WA, and in Morocco). I am presently a Program Manager (for SpED Division of San Diego Unified). As well, I was a foster parent serving special needs children for 17 years. AND, I am the parent of a daughter who receives services through SD Regional Center.

What are your areas of interest in the developmental disability field and service system?

Now that my daughter is 23, and living in an adult care facility, I am finding myself more and more interested in the services available to persons AFTER they leave the public education system.

Please explain why you wish to serve on the State Council on Developmental Disabilities, or on one of its Regional Advisory Committees:

I would like to put my passion and commitment to the betterment of the lives of people with Developmental Disabilities to work within our communities. I have a vast array of experiences both as a parent and as a professional and feel I can help make a positive difference.

What strengths would you bring to the State Council and/or Regional Advisory Committee?

A deep knowledge of disabilities both professionally and how it impacts the lives of families; a knowledge of how different cultural groups accept (or don't) people with disabilities - having worked with families on the Colville Reservation,

spending 6 years working as a birth-to-three teachers serving children and families who were migrant workers, living and working (in special education) in Morocco for 3 years, and being the parent of African-American (now adult) children and developing personal and professional connections within the African-American community here in San Diego. As well, I have personal skills to bring to "the table" - being the coordinator/lead of SDUSD's dispute resolution team.
